Samuel Davis

Cincinnati, OH ◇ 513-410-0106 ◇ davissamuelg1@gmail.com ◇ samueldavis.net

SUMMARY

Software engineer passionate about creating beautiful and functional software. Strong leadership skills and teamwork. Proficient in Java, Go, C/C++, Rust, Python, and Bash. Experienced with REST API development, shell scripting, Linux server management, database management (MySQL, PostgreSQL, and MongoDB), and Kubernetes setup and management.

EDUCATION

Cedarville University December 2024

B.S. in Computer Science & Cyber Operations

EXPERIENCE

Huntington National Bank January 2025 – Present

Software Engineer *Columbus, OH*

- ◇ Developed and maintained transaction APIs using Java, Springboot, and Lombok.
- ◇ Integrated APIs with IBM Message Queues and MSSQL and PostgreSQL databases.
- ◇ Used Jenkins to deploy code and Splunk to query API payloads.
- ◇ Worked in a Kanban team.

Virginia Tech National Security Institute May 2024 – August 2024

Software Engineering Intern *Blacksburg, VA*

- ◇ Performed data analysis on ID data using Python.
- ◇ Developed a new algorithm for ID data distribution.
- ◇ Installed, set up, and managed a Kubernetes cluster.
- ◇ Switched from MongoDB to MySQL and configured MySQL database for Kubernetes cluster.
- ◇ Developed a database API using ExpressJS.

PROJECTS

Personal Website November 2023 – Present

- ◇ Created a software engineering blog on repurposed Dell OptiPlex using Golang, Go HTML Templates, and custom CSS.
- ◇ Used Cloudflare Tunnels as a forward proxy for the site before migrating to Cloudflare Pages with Hugo as the static site generator.

Cedarville University Senior Capstone August 2023 – May 2024

- ◇ Created a decentralized private messenger using the Nostr protocol.
- ◇ Developed a multi-page React Native app.
- ◇ Worked in a team using the Agile workflow.
- ◇ Used Figma to model the application UI.

ADDITIONAL EXPERIENCE

Ohio Army National Guard December 2024 – Present

Field Artillery Officer *Delaware, OH*
